Good morning RRU colleagues,

Please find attached today's DIS & MIS Information daily report from Defence. We're still improving/tweaking the format to hopefully be more useful and readable / compatible with your products. Conscious of your comments about readability yesterday, it's now a PDF not a Powerpoint – is this better?

[REDACTED] as discussed earlier, **you are the release authority outside the hub** – this doesn't go any wider until you are completely happy. Let me know if you have any comments or how you'd like to proceed, or if there is any hot feedback for the day shift back home to follow up.

All the best,

[REDACTED]
