Good morning RRU colleagues,

Please find attached today's DIS & MIS Information daily report from Defence. Hopefully the new format should make for easier integration with your products. We'll send this out a bit more widely later, but wanted to make sure you had it before the 0700 report – should be even earlier in future. Any questions come straight back to me or [REDACTED] we'll be on Slack and email all day.

All the best,

[REDACTED]
